

For our team in Munich, we are currently looking for a

Service Engineer (m/f/d)

Industry: Laboratory & Medical Devices

Location: Munich, Germany

Employment: Full-time position

Qualifications: University degree in Engineering; job-related work experience a plus

Your role

As “Service Engineer”, you will contribute to the assembly, testing, installation as well as remote and onsite service of our ground-breaking optoacoustic imaging systems, containing highly sophisticated sub-assemblies including lasers, optics, ultrasound detectors, data acquisition electronics, mechatronics, and high-performance computing hardware and software.

Specific activities include:

- Provide remote and onsite service for global installed base
- Install imaging devices at customer sites
- Conduct component acceptance and system integration tests
- Update documentation for service, assembly and testing (SOPs)
- Contribute service aspects to medical device certification

For many of these activities the “Service Engineer” will work with other iThera Medical employees as well as vendors and external R&D collaboration partners.

Your qualifications / profile

The qualified candidate should have a strong background in electronics, IT, and/or laser technology, excellent analytical and practical skills, and a good command of the English language. Particularly preferred skills include one or more of the following:

- Comfortability with assembly, service, and troubleshooting of complex systems or laboratory setups
- Ability to interact professionally and effectively with customers and external partners
- In-depth knowledge in setting up and managing MS Windows systems
- German driving license class B
- Knowledge of photoacoustic or ultrasound imaging is a plus
- “Hands-on” and “can-do” attitude

In addition to the “hard skills” listed above, we require a passion for exploring new ground, developing a new business and working closely in a team.

We offer

- Breakthrough technology in the growth market of medical devices
- Substantial individual responsibility and the opportunity to realize own ideas
- A young, dynamic, international and adventurous team to work with

About iThera Medical

iThera Medical offers the next generation in photonic molecular imaging technology. The company was founded in 2010, as a spin-off from the Helmholtz Center Munich. Together, we pursue the further development of proprietary optoacoustic imaging technology for use in preclinical and clinical applications. Our international customers include the most prestigious research centers, academic hospitals and pharmaceutical companies. Please visit our website for more information (www.ithera-medical.com).

Do you want to take on responsibility and help us shape a leading-edge technology in a dynamic environment? Then we are looking forward to hearing back from you!
