**We offer**

- An exciting and diversified work environment
- Breakthrough technology in the growth market of medical technology
- Substantial individual responsibility and the opportunity to realize your own ideas
- A young and dynamic team to work with

## About iThera Medical

iThera Medical offers the next generation in photonic molecular imaging technology. The company was founded in 2010, as a spin-off from the Helmholtz Center Munich. Together, we pursue the development of proprietary optoacoustic imaging technology for use in preclinical and clinical applications. Our international customers include the most prestigious research centers, academic hospitals, and pharmaceutical companies. Please visit our website for more information ([www.ithera-medical.com](http://www.ithera-medical.com)).

Currently we are a team of 20 nationalities, we value and respect diversity, unique styles, experiences, identities, abilities, ideas and opinions.

Do you want to take on responsibility and help us shape a leading-edge technology in a dynamic environment? Then we are looking forward to hearing back from you (email: [careers@ithera-medical.com](mailto:careers@ithera-medical.com))!
